

## Adios Amigo, we're leaving Oler's

By: Gavin Beach

I have now completed my first job rotation. While at Oler's I have learned how to handle constructive criticism and have improved on being a bigger asset at being a team player. I don't have a favorite job task, but I have learned so many new things. The things I learned at Oler's will be a helpful tool for my next job site and in my everyday life. Who knows how far my learning will take me, one thing is certain though, I came a long way from where I began.

## SUCCESS!

By: Roman Mauricio

At our Oler's job site, I improved on my communication skills. I remembered to look at people when they are talking to me. I learned many new job tasks, but my favorites are counting the shrimp and wiping menus. I enjoyed counting the frozen shrimp and bagging them. I really liked working at Oler's and learning new skills. I am looking forward to expanding my skills at our next jobsite – The YMCA!

## First Job Rotation Complete

By: Victoria Gillham

One of the job tasks that I improved on was spooning sour cream into smaller plastic containers. My skills trainer made me an adaptive tool, which helped me to be more independent, at this task. I have been trying to learn to try something first, before asking for help. I have learned many job tasks at Oler's. My favorite one is putting lettuce and cheese into different containers. It was my favorite job because I felt like I was being a big help to my co-workers. We will miss working at Oler's and all of our co-workers!
